

Letter of Guarantee

Best Sanitizers, Inc. certifies that HACCP E2 Hand Soap complies with earlier USDA guidelines for E2 Handwashing and Sanitizing Compounds for use as a hand wash in food processing and food handling areas in official establishments operating under the Federal Meat and Poultry Inspection Program. This certification is based on a review by Best Sanitizers, Inc. establishing that HACCP E2 Hand Soap meets current FDA and USDA requirements for hand washes. HACCP E2 Hand Soap is formulated to current standards from USDA and FDA. Use HACCP E2 Hand Soap as directed. HACCP E2 Hand Soap should be dispensed from Best Sanitizers, Inc. dispensers. When used following label instructions HACCP E2 Hand Soap is safe and effective as a Handwashing and Sanitizing Compound and will not adulterate food products when used following label directions. HACCP E2 Hand Soap is produced under cGMP at a FDA registered site.

E2. Handwashing and Sanitizing Compounds

The compounds must be dispensed from adequate dispensers located a sufficient distance from the processing line to prevent accidental contamination. The hands need not be washed prior the use of to the compound. After the use of the compounds, the hands must be thoroughly rinsed with potable water following the use of the compound. The compounds must always be used at dilutions and according to applicable directions provided on the label. The compounds have been accepted on the basis of their equivalency to 50 parts per million chlorine.
