To Whom It May Concern,

ALPET Q E2 Sanitizing Foam Soap is a gentle skin cleanser formulated from an antimicrobial agent, mild surfactants, humectant, color, preservatives and fragrance. The ingredients are Water, glycerin, Cocamidopropyl Betaine, polyethylene-polypropylene glycol, benzyl alcohol, phenoxyethanol, tetra sodium EDTA, dehydroxyacetic acid. None of these are generally recognized as allergens. In preparing the formula, there are no soy components added, nor almond oil, peanut components, tree oil or other well-known allergens. The product does contain materials derived from Coconut Oil.

Sincerely,

A handwritten signature in blue ink, appearing to read 'C. Linville', is written over a light blue horizontal line.
