

January 2, 2021

To Whom It May Concern,

ALPET D2 Quat-Free Surface Sanitizer is an alcohol surface sanitizer/disinfectant formulated for application to surfaces and water sensitive equipment. The ingredients are Water, ethanol, isopropyl alcohol, and acetic acid. None of these is generally recognized as allergens.

In preparing the formula, there are no soy components, almond oil, peanut components, tree oil, gluten or other well-known allergens added.

Sincerely,

A handwritten signature in blue ink, appearing to read 'C. Linville', is positioned above the typed name.
