To Whom It May Concern,

ALPET E4 is a very gentle skin cleanser formulated from mild surfactants, humectant, color, preservatives and fragrance. The ingredients are Water, Sodium Laureth Sulfate, PEG-8, Laureth-5, Sodium Chloride, Fragrance, Styrene/acrylic copolymer, 2-Brumo-2-Nitropropane-1, 3-Diol and Blue 1. None of these are generally recognized as allergens. In preparing the formula, there are no soy components added, nor almond oil, peanut components, tree oil or other well-known allergens.

Sincerely,

A handwritten signature in blue ink, appearing to read 'C. Linville', is positioned above the typed name.
