

BSX1000

High Capacity Walk Through Boot Scrubber Unit

The BSX1000 is a wet, walk through, dual boot scrubber. This unit is designed for facilities where high throughput is critical. The user activates the system by stepping onto the platform. Diluted cleaning solution is sprayed onto rotating brushes and transferred onto the boots from a stainless steel venturi dilution valve and metering tip to provide the desired PPM.

We recommend using Alpet® No-Rinse Quat Sanitizer with the BSX1000 to aid in the cleaning of footwear prior to sanitizing (sanitization can only occur on pre-cleaned footwear). The BSX1000 uses two rotating disk brushes and two long horizontal sole brushes, while the BSX1000-V uses 3 vertical rotating brushes and two long horizontal sole brushes. Both of these configurations provide multiple points of contact between brush and boot. These units are designed for larger spaces and higher traffic applications.

Features

- Solid member stainless steel frame construction
- Hinged stainless steel access grate, two removable stainless steel steps, removable combination brush assembly with one brush for each sole and four disk brushes for sides of feet, and two 33" long removable sole brushes
- Stainless steel electrical enclosure with variable speed drive, timer and e-stop
- Proximity sensor and spring loaded grate for unit activation
- Three stainless steel washdown rated 1/2hp motors and three worm gear reducers
- Self draining tub with four adjustable dairy approved feet
- Solenoid activated brush spray system with Venturi injector for sanitizer with flow rated at 2.5 Gpm

Connection Requirements

- 220V ac, single phase, 15 amp electrical connection required
- 3/8" Nptf cold water connection, 50psi recommended
- 1.5" Tri-clamp drain connection

Throughput	Where to Use
<ul style="list-style-type: none"> • 3 users at a time • 15-25 users per minute 	<ul style="list-style-type: none"> • High number of employees • Plants with plenty of open space • Areas with access to water lines • Areas with accessible floor drains
Dimensions	Height 54" x Width 45" x Length 96"
	Weight
	800 LB

- BSX1000-DAF Boot Scrubber w/ Dairy Approved Feet
- BSX1000V-DAF Boot Scrubber w/ Vertical Brushes and Dairy Approved Feet
- BSX1000V-DAF-6 Boot Scrubber w/ 6" Vertical Brushes and Dairy Approved Feet
