# HACCP **SmartStep™** Footwear Sanitizing System

**Reduce cross-contamination from footwear anywhere in your facility.**

This foot-operated unit uses compressed air to deliver an atomized spray. Each application provides ample coverage to footwear soles, yet uses only 0.2 ounces of chemical which minimizes chemical waste and improves moisture control. Collection basin is easily accessed for cleaning.

### Features:

- Atomized spray provides ample coverage to footwear soles while reducing chemical waste and controlling moisture
- Fresh application of chemical with every use
- Compact footprint means you can place multiple units throughout your facility
- System can be tailored to meet your plant's specific needs

*Add a floor mat to provide a sure-footed surface for exiting the sanitizing unit.*
