

HACCP **SmartStep**TM Footwear Sanitizing System

Footwear Pathogen Protection Made Smart

A compact, powerful tool for reducing footwear cross-contamination in wet or dry processing facilities

This foot-operated unit uses compressed air to deliver an atomized spray of Alpet® D2 Surface Sanitizer. Each application provides ample coverage to footwear soles while using only 0.2 ounces of chemical, minimizing waste and improving moisture control. A compact, yet powerful tool that supports the safety of food processing facilities by effectively sanitizing footwear at critical control points before employees enter the production floor.

ADB0002-MH
SmartStepTM Sanitizing Unit w/ handle

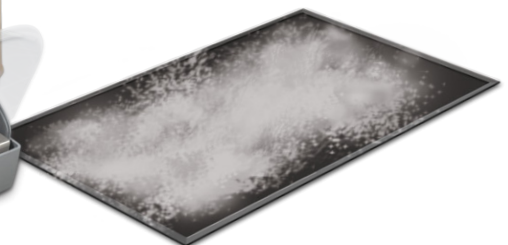

FEATURES:

- Fresh Alpet® D2 Surface Sanitizer with every application.
- Compact footprint means you can place multiple units throughout your facility.
- System can be tailored to meet your plant's specific needs.
- Collection basin easily accessed for cleaning.

- 10 second kill on non-food contact surfaces, including rubber footwear.
- 58% IPA/Quat formula.
- 60 second kill on food contact surfaces, including rubber gloves.
- 5 minutes to disinfect non-food contact surfaces.
- Highly evaporative / non-corrosive / ideal for water sensitive equipment and low-moisture environments.
- NSF listed D2 classification and EPA registered.
- Kosher, Pareve and Halal certified.

Quat-Free Surface Cleaner, Sanitizer and Disinfectant

- 10 second kill on non-food contact surfaces, including rubber footwear.
- Highly evaporative and ideal for low moisture environments and water sensitive equipment.
- 70% alcohol formula (62.5% ethanol / 7.5% isopropanol).
- Ready-to-use • No-rinse required • No unsightly residue
- NSF listed D2 classification.
- Kosher, Pareve, and Halal certified.
- Listed on the EPA's list of disinfectants for use against SARS-COV-2.
- Kills 99.999% of 8 tested pathogens in 60 seconds on food contact surfaces, including rubber gloves.
- Clean, sanitize, and disinfect food contact and non-food contact surfaces with one product.

Dry Step Floor Treatments

We recommend adding one of our Dry Step Floor Treatments to a floor mat to provide a sure-footed surface for exiting the HACCP SmartStep™ Footwear Sanitizing System.
