

# BSI Compact Airless Foamer

The BSI Compact Airless Foamer is a unique, medium volume hose-end foam gun for diluting and applying foaming chemicals to any surface. This unit uses standard city water pressure to draw chemical concentrate from the attached bottle and blend it into the water stream. The accurately diluted solution flows through the foam wand to create a clinging, wet foam which is then projected on to any surface up close or at distances up to 12 feet.

## Key Features

- Creates rich, wet foam which increases chemical contact time and effectiveness
- Foam provides visual confirmation of complete coverage
- Projects foam up to 12' (depending on water pressure)
- Durable! Foamer body is machined in the USA, not molded
- Outlasts and outperforms similar molded plastic products
- The stainless steel quick disconnect socket features 6 retaining balls to lock the bottle and foam assembly securely in place
- Quick disconnect the foam assembly to rinse
- With less than half the flow rate of competing models, you save money
- Light, 22oz bottle reduces wrist and arm fatigue and the risk of repetitive strain injuries
- No moving parts! Venturi action dilutes chemical consistently
- Great performance with pressure as low as 20 PSI
- Impact resistant lid stands up to substantial abuse
- Color-coded lids and guns help identify chemicals and enhance user safety (blue standard - red, yellow, or green optional)
- Compact units are also offered as sprayers

## Includes

- Machined polypropylene injector body
- Stainless steel quick disconnect plug and 6-ball socket
- 22oz wide-mouth, HDPE bottle
- Heavy-duty bottle lid
- 20 color-coded precision metering tips to set dilution ratios
- Trigger gun with inlet screen/filter
