Unsuitable Extinguishing Media

No Information available.

Specific Hazards Arising from the Chemical

Formation of toxic gases is possible during heating or in case of fire.

Protective equipment and precautions for firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear. Cool containers with flooding quantities of water until well after fire is out. Eliminate all ignition sources if safe to do so.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Personal Precautions for Emergency Responders

Use personal protection recommended in Section 8. Ensure adequate ventilation, especially in confined areas. Keep unprotected persons away. Keep away from ignition sources. Protect from heat.

Environmental precautions

Environmental Precautions

Prevent entry into waterways, sewers, basements or confined areas. See Section 12 for additional ecological information.

Methods and material for containment and cleaning up

Methods for Containment

Prevent further leakage or spillage if safe to do so. Contain and collect spillage with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local/national regulations (See Section 13).

Methods for Cleaning Up

Use clean non-sparking tools to collect absorbed material. May be ignited by friction, heat, sparks or flames. Collect spillage. Soak up with inert absorbent material, Sweep up and shovel into suitable containers for disposal. Following product recovery, flush area with water. Always obey local regulations. Wash hands after handling. Avoid contact with skin and eyes.

7. HANDLING AND STORAGE

Precautions for safe handling

Handling

Prevent formation of aerosols. Avoid splashes or spray in enclosed areas. Take precautionary measures against static discharges. Do not eat, drink or smoke when using this product. Use personal protection recommended in Section 8. Rags, metal wools/cuttings/shavings and waste papers soaked with product must be placed in a sealed metal container rated for flammable waste. Flammable gas-air mixtures may form in empty receptacles. Fumes can combine with air to form an explosive mixture..

Conditions for safe storage, including any incompatibilities

**Storage Conditions/
Incompatible materials**

Keep Containers tightly closed in a dry, cool and well-ventilated place. Avoid storage near extreme heat, ignition sources or open flame. Keep away from foodstuffs. Store away from oxidizing agents. Protect from freezing and physical damage.
