To Whom It May Concern,

ALPET E2 Sanitizing Foam Soap is a gentle skin cleanser formulated from an antimicrobial agent, mild surfactants, humectant, color, preservative and fragrance. The ingredients are: Water, Glycerin, Cocoamidopropyl Betaine, polyethylene-polypropylene glycol, Benzyl alcohol, phenoxyethanol, tetra sodium EDTA, dehydroxyacetic acid. None of these are generally recognized as allergens.

In preparing the formula, there are no soy components, almond oil, peanut components, tree nut oil or other well-known allergens added. This product does contain Coconut Oil.

Sincerely,

A handwritten signature in blue ink, appearing to read 'C. Linville', is positioned above the typed name.
