To Whom It May Concern,

ALPET D2 Flex Surface Sanitizer is an alcohol/quat based sanitizer formulated for application to surfaces and water sensitive equipment. The ingredients are Water, isopropyl alcohol, glycerin, and dimethylammonium chloride. None of these is generally recognized as allergens. In preparing the formula, there is not any soy components, almond oil, peanut components, tree oil, sesame or other well-known allergens added.

Sincerely,

A handwritten signature in blue ink that reads 'Tarah Schwartz'.
